## TILT PROTECTION

### TILT PROTECTION

The anti-tilt device prevents the art objects from tipping over. It is height, width and depth adjustable. In addition, the anti-tilt device is secured against falling out by means of a screw on the lower wire.

Art. no.:	gembh-10
Material:	Sheet steel
Sheet thickness	2.0 mm
For mesh size:	80 x 100 mm
Surface:	Galvanised
Bracket:	POM plastic
Depth adjustment range:	0 – 80 mm

Subject to technical changes at any time.
